## SUMMARY

A motivated, adaptable and responsible Communication Interactive graduate seeking a position in a company which will utilize the professional and technical skills developed through past work experiences in this field. I have a methodical, customer-focused approach to work and a strong drive to see things through to completion.
Experienced in Python and JavaScript based programming with a background in the Developers Institute TLV Coding Bootcamp. Possess strong skills in website building and project management that can help Service Business Companies to obtain worthwhile outcomes.

## TECHNICAL SKILLS

Bachelor's degree in Economic and Science. Skills in logistics acquired during my time in the Israeli Army as a volunteer. Knowledge that I obtained at IDC Herzliya in Interactive Communications include Social Network Analysis, VR, UI, UX and HCI. Technologies that I learned at the Developers Institute TLV Coding Bootcamp include HTML5, CSS3, Python, OOP, SQL, Flask, Django, JavaScript and React.

## TECHNICAL PROJECTS

**Artathon Liberty** - Github | Demo (https://github.com/Ness247142/Hackathon1)
My first Hackathon done during the Developers Institute Bootcamp in January 2021
- Created an image gallery to make people reflect about the freedom of movement during the corona crisis
- Worked online in a team of 3 developers to create the website with the help of GitHub

## EXPERIENCE

**Internship in a radiology center**                                                                                          Paris, France
Centre de Radiologie Daumesnil                                                                                                   12/2010
- Assisted the company's members (instrument handlers, secretaries and doctors) in their daily work to gain real life experience in working
- Took notes every day on my computer in order to send them to my school for the validation of the internship
